Notice

Dear Members,

We have been regularly reminding you to pay long pending dues of the Society against your flats but it is quite disappointing and very sorry affair that no positive response from your side, so far, you know that repair work in the Society is going on war footing. If you members will non-support the management financially, it will be difficult to continue the repair work at this pace and also convince other members who have paid all outstanding dues.

We have been requesting you since we took over charge from previous management. Now we are forced to take strict action against you, starting major penalty (highest permissible interest of 18% on the outstanding dues) and writing to RCS for cancellation of flat.

Hoping positive response from your side.

Regards

Secretary
